

Verified Designer

Jane Appleton

Product Designer at Uxceleration

San Francisco, CA, United States (GMT-8)

Summary

I've been interested in building things for about as long as I can remember, and it's no surprise that my career has focused on Product Design. I love a challenge and have worked in both enterprise companies and startups alike. I'm comfortable working in remote and office environments, and I've worked with teams from the US, Poland, Russia, India, and Italy.

When I'm not working, I love to hike, rock climb, listen to 80's pop music, and cook.

3 years of design experience
